## CallegraWEB™ For Internet Explorer®

### Callegra™

- .....CallegraVOICE™
- .....CallegraFAX™
- .....CallegraDESK™
- ☑.....CallegraWEB™
- .....CallegraTTS™

**CallegraWEB** delivers anytime, anywhere messaging access and enhanced remote manageability for today's workforce—especially for mobile professionals! As the next level of visual voice and \*fax messaging, CallegraWEB brings the advantages of an easy-to-use browser based client together with the universal coverage of the Internet to provide powerful messaging options for Callegra users everywhere.

### Key Benefits

- Send & Receive Voice & Fax Messages
- Multimedia & Telephone Control
- Enhanced Efficiency & Communication
- Technology to Impact Business
- Multilingual Support

### Send & Receive Voice & Fax Messages

The CallegraWEB Inbox displays voice and fax messages for easy prioritization and management. Playing voicemail and viewing faxes are only a mouse click away from any PC with an Internet connection and web browser. The easy-to-use Callegra Address Book makes quick tasks such as replying, routing or forwarding messages simple and efficient. Creating new messages with the Callegra Address Book means no more hunting around for extensions. Sending a new fax is simple too. Users just select “CallegraFAX” as the printer on their PC.

### Multimedia & Telephone Control

With CallegraWEB, users can choose to listen to their voicemail over the telephone or with multimedia speakers on their PC. Likewise, users can record new messages or replies using a telephone or the microphone on their PC. Selecting “Telephone” or “Multimedia” is achieved on the fly through the CallegraWEB preferences page. Users can select the option that best meets their needs at the moment. CallegraWEB allows messaging to fit into a user's busy day instead of forcing a user's day to accommodate messaging.

\*Fax functionality is optional (See CallegraFAX brochure)

*Passcode protected, the Callegra Inbox displays voice and fax messages.*

## Enhanced Efficiency & Communication

With the visual cues that CallegraWEB provides, users can respond to messages immediately or wait to handle several messages at once. This allows Callegra users to deal with important issues right away yet minimize trivial interruptions.

## Technology to Impact Business

CallegraWEB delivers technology that makes a positive impact on business. Web pages help users to be more productive now that they can add additional message information such as a subject or sender name. CallegraWEB QuickView allows fax recipients to see what they have received quickly, even over a dial-up connection. Users can archive important faxes as higher resolution .tif files for document manipulation or long-term storage. Similarly, users can download voice messages as .wav files for permanent reference. Bringing value to the bottom line, not just enhanced messaging—CallegraWEB utilizes leading edge technologies that have been proven in the business world.

## Multi-lingual Support

CallegraWEB is available in U.S. English, Latin American Spanish and Brazilian Portuguese with more languages on the way. CallegraWEB—Bringing the improved productivity of the Internet's messaging capabilities to today's workforce.
